

## **Egypt's Pearls - A Divine Journey to Awaken Your Memories from Lemuria.**

This is a sacred journey to discover your inner treasures with the help of dolphins and blessed temples. We are going to offer you magical moments and unique experiences.

In Hurghada, we will spend three days on a boat in the Red Sea to encounter dolphins and receive assistance in attuning our energies to their pure and high frequencies.

Water carries all memories through eternity. Through water, we awaken our divine abilities.

Dolphins are highly evolved cosmic beings that have lived on Earth for millennia. With their deep roots in Lemuria and our Lemurian ancestors, they are guardians of ancient lost knowledge. Dolphins carry crystalline light codes with Lemuria's pure frequencies of love. Through the etheric element, Lemurian frequencies are transmitted, awakening the wisdom of our inner healing power.

Egypt's Pearls - A Divine Journey to Awaken Your Memories from Lemuria Egypt's Pearls is a journey to discover your inner treasures with the help of dolphins and sacred temples. This journey will offer you magical moments and unique experiences.

In Hurghada, we will spend three days on a boat in the Red Sea to encounter dolphins and receive assistance in attuning our energies to their pure and high frequencies. Water carries all memories through eternity. Through water, we awaken our divine abilities. Dolphins.

Dolphins are highly evolved cosmic beings that have lived on Earth for millennia. With their deep roots in Lemuria and our Lemurian ancestors, they are guardians of ancient lost knowledge. Dolphins carry crystalline light codes with Lemuria's pure frequencies of love. Through the etheric element, Lemurian frequencies are transmitted, awakening the wisdom of our inner healing power.

The communication of dolphins has miraculous effects on us humans. The evolutionary basis for our special relationship with dolphins is that we are descendants of the same ancient branch of humanity. Dolphins and humans both trace their origins to the cradle of Mother Ocean. As fetuses, we are immersed in water, and water is also the fundamental component of our bodies. The common origin of dolphins and the ancient civilization of Lemuria is Sirius. This connection is still celebrated through annual gatherings where dolphins honor our divine heritage.

Through telepathic communication with dolphins, we can access their millennia-old knowledge to understand the truth about the origins of humanity and our shared future. Dolphins' healing sonar helps humanity regain access to the cosmic ocean of infinity.

The ultrasound that dolphins emit for echolocation consists of two intertwined ultrasound beams. The two signals are very close together. The frequency of sound is much higher further up the beam. This emits a brighter echo that has profound effects and awakens our high-frequency aspects in our cells.

With the help of dolphins, we open our higher sensory abilities to receive more of the wisdom codes preserved in the sacred temples of Luxor.

There are so many truths hidden by manipulative forces to prevent us from learning about the ancient civilization of Lemuria, which was more advanced both spiritually and technologically compared to our civilization today. If we gain access to the truths

of our origin, it could threaten the history created to conceal our true nature, divine potentials, and universal rights. Lemuria is one of the lost continents, often considered the lost paradise.

Lemuria is the Motherland that cradles "the cradle of humanity." In our DNA, our crystalline strands hold memories of Lemuria and our true divine origin.

Have you ever stopped and felt that the truths presented in our time are part of a mental manipulation system?

We are currently in a planetary transition where we are awakening everything that has been obscured by light. Our energy work to awaken our crystalline light strands is of great significance in illuminating many important civilizations and events hidden from humanity.

Lemuria was the place where star beings descended to create human DNA with the frequencies of the stars and multidimensional abilities of star civilizations.

Egypt is the cradle of the goddess's sacred wisdom. Egypt's sacred temples are created based on the starry heavens, and each temple carries unique star codes to reawaken our multidimensional abilities in our DNA. Through these star frequencies, we revive our divine memories to recreate the paradise of unity and wholeness within ourselves and on our Earth.

In Luxor, we will visit the Karnak Temple, Luxor Temple, Medina Habu Temple, Isis' small prayer temple on the West Bank, and Hathor's Temple in Dendera over four days.

In Luxor, we will also visit an Egyptian bazaar and a small local village. There is also the opportunity to venture into the desert to witness the beautiful sunset on the West Bank. Experiencing Luxor from a hot air balloon and riding a camel is possible for those who wish.

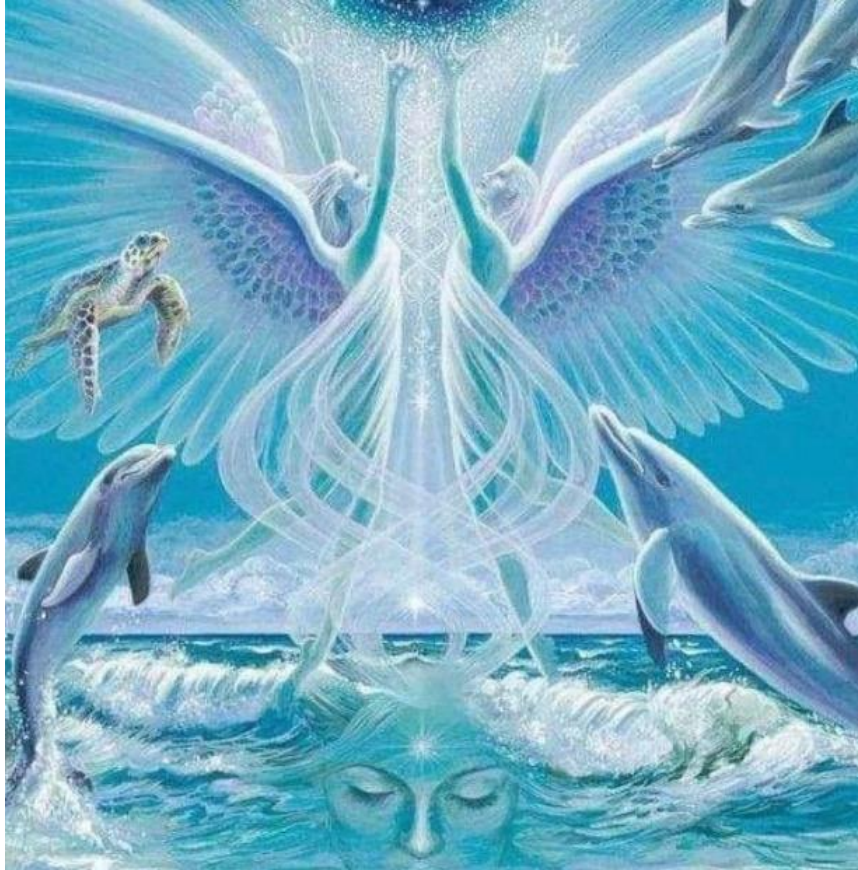

Egypt's Pearls is a unique journey that will take place from May 4th to May 11th, 2024, in conjunction with the 5:5 portal on May 5th. Together with the dolphins, we have the specific mission to awaken Lemuria's inner divine pearls in our hearts and on Earth.

Jenny Åsenlund and Angela Johnsson are the organizers of the journey, which will be shared with a small group of souls who feel a strong inner longing to reconnect with Lemuria, the dolphins, their inner goddess, and divine heart.

In this unique group, each participant will have the amazing opportunity to discover their home, origin, and true divine self within. Yoga, guided meditations, individual sessions, and spiritual guidance are also offered during the journey.

The higher purpose of the journey is to develop more of our inner divine potentials with the help of dolphins and sacred temples. Through our energy work to strengthen the inner true essence and frequency of our hearts, we give ourselves the gift and opportunity to live our lives in alignment with our soul's purpose and higher divine mission.

During our workshops on the boat in Hurghada and the hotel in Luxor, we will also conduct inner energy work together to strengthen our frequency and goddess aspects.

The cost is 10,000 SEK for workshop, yoga, meditation, individual sessions that Jenny and Angela offer. The remaining cost for the boat and hotel is 850 USD, which you should bring in cash and pay on-site.

The price includes three days on the boat in Hurghada, including all meals. It also covers four days in an apartment hotel in Luxor, including breakfast, airport transfers, and transfers between Hurghada and Luxor. Each day includes workshops with yoga, guided meditations, and channelled messages. It also includes individual sessions with Jenny and Angela. Additional expenses include airfare, temple tickets in Luxor, lunch and dinner during the days in Luxor, and a 25 USD visa fee.

We depart from Sweden (or where ever you are travelling from) in the evening on May 3rd and land in Hurghada early on May 4th, checking in to the boat. We check out from the boat on the morning of May 7th and take a bus to Luxor, where we check into the hotel. We stay in Luxor for four days, checking out from the hotel on

the afternoon of May 10th and taking a bus from Luxor to the airport in Hurghada to catch a midnight flight back to Sweden or your preferred destination. For Swedes we arrive in Sweden in the morning on May 11th.

We welcome you, beautiful Lemurian soul, to join our divine goddess circle.

You can sign up by contacting Jenny Åsenlund or Angela Johnsson. The registration fee is 5,000 SEK.

### **About Jenny and Angela and our activities:**

Jenny's first memory from the high-frequency, loving time in Lemuria was activated through the water element. During her childhood, she already loved being in the water, as she practiced diving almost daily.

Turquoise (the color of the sea and the higher heart chakra/throat) has also been her favorite color since her teenage years. And as early as 11 years old, she was enchanted by the magical world of the Red Sea. A feeling of coming home among fish and coral reefs. Dolphins have always been close to her heart. They have called her to do deeper energy work with a group, and that work is for the development of individuals but also for the sake of dolphins and our planet.

That the unique Egypt journey is on the dolphins' terms is of the utmost importance. Sound and frequencies as a key to raising the frequency of our planet have been calling Jenny for a long time in her energy work. You can also hear more about Jenny's thoughts and feel her energy in Jenny's existential podcast "En röst i Univesrum = "A Voice in the Universe." There, she speaks directly from the heart without a script, just as she has been guided to do.

The frequencies of dolphins are something we have to learn from. Their intelligence goes beyond human logical reasoning, but our hearts know. Hathors also carried wisdom about these codes. In Jenny's own healing journey, the throat chakra, the center of communication, is central and connected to her practice of Mantra singing/chanting and toning, drumming, and crystal bowls, which are some of the tools she has developed within as part of her own and others' healing journeys. Sounds affect us down to the cellular and DNA levels.

The physical body is our vessel on Earth, and it needs all our love and attention. Everything is energy, and so is our body. We cannot separate ourselves from the body and expect deep spiritual and personal development without grounding ourselves with the body.

Yoga is one of the tools Jenny has explored for almost 20 years to heal and expand her own and others' consciousness. Initially as physical activity, but in the last 8 years, she has taught the gentle forms of yoga such as Meditation, Yin, and Restorative yoga. These are the forms of yoga where deep breathing is central, and the meditative state and presence in the moment are fulfilled. It's about connecting with emotions and learning to listen to one's needs and intuition.

She now guides yoga intuitively from the heart with great presence, also leading online courses. She is appreciated for her calming voice, choice of frequency-raising music, and the open-hearted, non-competitive atmosphere that prevails. Everyone feels included regardless of their physical condition.

Jenny has a background in Behavioral Science, holding a Bachelor's degree. In 2016, she followed her heart and quit her job as a project manager to focus on helping others find their best lives and fullest potential. Following her heart's calling brought deep meaning to her life, and she now supports others in doing the same in their own unique ways.

As an entrepreneur, she gained the opportunity to be more present with her then-small children and her husband, which was of immense significance to her. Jenny is a curious soul who continues to evolve and readily shares her experiences. The tools she uses to assist others in their personal development journey include healing coaching sessions, yoga, retreats, healing with channeled messages, toning/light language, drum and sound journeys.

In addition to her yoga certifications, she is also trained in Reiki and spiritual healing, mindfulness, chakras, stress management, sound healing, and has helped hundreds of individuals find alternative paths to strengthen themselves, feel well, and open their spiritual intuitive channels. Since 2019, she has developed her own intuitive healing method that incorporates the breadth of her expertise and experience. This method is designed for empaths and healers to find their own ways to help themselves and others based on their unique gifts. Sending distant healing with guidance is her specialty on energy-boosting days in "Ditt gnistrande liv medlemskap" - "Your Sparkling life Membership".

In 2022, Jenny began leading courses and gatherings where she uplifts other Soul Entrepreneurs to succeed in sharing their beautiful gifts. More light-bearers are

needed, and in these spaces, competition is no longer the focus. Having the courage to step forward and be seen is crucial. Her courses benefit everyone, fostering a warm sense of community. Everyone is needed for the ascension of the new Earth.

Her guides have been clear for the past two years: the new era is being co-created together. It's time for us to come together, heal, and raise our own frequencies alongside like-minded individuals, animals, and nature. It's time to awaken the cellular memories that we, as old souls, carry, in order to create a necessary shift on Earth, where we operate humbly from the heart. It's something deep within us that we know is possible or wish to be reminded of.

Since moving to Höllviken in 2018, Jenny has been welcoming clients to her shala (a sacred space) adjoining her home, offering individual or group sessions, as well as courses in yoga, healing, and intuitive development. Half of her client sessions take place remotely.

With a steady hand since 2016, Jenny has organized 15 highly appreciated retreats for recuperation, personal, and spiritual growth. Dedication, security, and open-heartedness are some of her guiding principles. Being able to arrange the Dolphin Journey with Angela feels divinely guided, and Jenny feels great humility and gratitude for the mission and for those who choose to join in our collective energy work.

Since 2012, Angela has been working with the GoldenStarCode, which is a dimensional healing modality using universal star frequencies. This healing approach helps us become more aware of the soul's eternal existence, allowing us to bring more of our universal star frequencies into ourselves and onto Earth. Healing with the golden star codes illuminates the soul's past lives on Earth and in other places in the Universe. By downloading our star frequencies, we open up more of our star consciousness, which sheds light on our origin and higher divine self.

Throughout her spiritual journey, which began in 1998, Angela has pursued various training in wellness, health, healing, and alternative therapies. She is a certified wellness therapist, masseuse, and reflexologist. Angela has also completed training in reiki healing, quantum physics, meditation, qigong, yoga, relaxation and stress management, as well as an Ayurvedic course on life energy and the body's meridians, chakras, and energy systems. From 2008 to 2012, Angela pursued a master's degree in Business Administration and Management at the university. She has also received coaching certifications from the Swedish Football Association (SvFF) as both a player and a coach within the football community.

Since the year 2000, Angela has been involved in various groups and contexts to develop and strengthen the ascension process both individually and collectively. However, the most significant teachers in Angela's life are her five children, who are now adults, and her loving, supportive, and understanding husband. The family has been the core that has allowed her to grow in love, light, and joy with a sense of security. Nature and the family's beloved pets have also been essential aspects of her energy work, providing inspiration, recovery, energy, and strength.

In 2009, with the assistance of her spiritual guides, Angela began developing this universal dimensional healing modality. Her spiritual guides gave this new form of healing the name GoldenStarCode because its purpose is to awaken memories from past lives stored in our soul's archives using the higher frequencies of the stars. It also aims to open our star consciousness, activate our divine DNA, and elevate our higher universal chakra system. The golden star codes enhance the light capacity of our cells, which, in turn, raises the frequency of light and love within us. Starlight provides us with information and a greater understanding of how the balance and interaction between body and soul offer us greater awareness of the whole.

Angela offers various GoldenStarCode healing treatments and activations, as well as consultations and coaching for personal development and spiritual guidance, both in-person and remotely. In recent years, Angela has been organizing events with energy work, both physically and online, as well as providing education, courses, and journeys in quantum physics to promote greater spiritual awareness and understanding of our soul's existence and connection with the universe and the whole.

Angela organizes events in conjunction with energy elevations that are favorable for our spiritual development. During these energy works, we harmonize with the energies, vibrations, and frequencies of the Universe with the purpose of anchoring these universal flows within ourselves and on Earth. Many of these energy works take place at the Labyrinth. Angela created this power spot in 2017 to strengthen the universal ascending spiral force within us and on Earth. Since we live in a spiral

galaxy, the spiral is a natural transformative and expanding force that exists within us all. In our DNA, we carry incredibly powerful potential abilities for those who choose to develop these unique spiritual capacities.

Since 2019, Angela has organized 7 journeys through the magical land of Egypt. Each journey is unique and is created based on the energies at the specific time and the group's soul awareness and higher purpose. Egypt leaves no one untouched. The energies in Egypt are incredibly powerful and provide everyone with extra opportunities to heal and integrate our soul fragments, allowing us to awaken more of our higher divine aspects and strengthen our inner power and frequency. These journeys are deeply transformative and spiritually enriching on many dimensional levels.

The higher divine purpose of the journeys to Egypt is to find home within ourselves. In our hearts, we are always at home. Through our hearts, we feel unity with our Mother, which provides us with a deeper sense and understanding of our origin and authentic selves. It is the Mother's love in our hearts that unites us all into ONE.
